

CR1500

Powerful cleaning in demanding conditions

Easy inspection, maintenance and replacement of the brush is possible thanks to no-tool-needed access

The dust filter can be easily removed for inspection without the use of tools

The CR 1500 can dump debris at a height of 152 cm

Fits your application perfectly

Simple operation, flexible performance

When the demand is for a machine capable of really heavyduty industrial cleaning performance, the Nilfisk CR 1500 supplies the answer. With an all steel construction and wrap around bumpers, king-sized tanks and hopper, and a powerful 3-litre engine, this combination machine is built to perform under the toughest of conditions. The machine's cleaning power is enhanced by disc brushes and a hydraulic system that provides a scrub brush pressure of 272 kg on the floor. The real performance capability of the CR 1500 provides outstanding results and impressive productivity gains that quickly repay investment costs. When cleaning conditions are severe, nothing compares with the strength, power, and reliability of the Nilfisk CR 1500.

- Wide scrubbing area (137 cm), a sweeping width of 152 cm, 11 km/h working speed, plus 380 litre capacity solution and recovery tanks provide high productivity
- Huge hopper with 454 litre capacity provides increased operational time, and a dump height of 152 cm for emptying into any container
- Oil and grease is removed in one pass thanks to 272 kg of scrubbing pressure
- Rear wheel power steering for better traction control
- Ergonomically designed operating seat and controls allow better vision for improved results and safety
- Heavy duty steel construction protects both the machine and the operator
- Easy no-tool access to all major components and compartments reduces maintenance time
- Adjustable scrubbing pressure provides first class cleaning regardless of dirt level or floor condition

The recovery and solution tanks are squared and made of stainless steel. This allows them to be easily cleaned and it enables the use of hot water for better floor cleaning

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

The CR 1500 is a complete floor cleaning solution as it can sweep, scrub and dry in a single pass or be used for just sweeping or scrubbing depending on the application.

Technical specifications

Description	Unit	CR 1500 LPG	CR 1500 Diesel
Motor type	min.	4 cyl. 86HP, 3.0L	4 cyl. 47.3HP, 2.5L
Productivity rate theoretical/actual	m ² /h	15070/10549	15070/10549
Sweeping width	mm	1520	1520
Min. turn around aisle width	cm	305	305
Max speed	km/h	11	11
Solution/recovery tank	l	380/380	380/380
Hopper volume	l	454	454
Fuel tank	l	35	35
Max dumping height	cm	152	152
Sound level	dB(A)	86.1	85
Brush speed/pressure	rpm	200/272	200/272
Squeegee width	cm	135	135
Length x width x height	cm	272x150x156	272x150x156
Operating weight	kg	2353	2353
