

SCRUBTEC 344

Productive and easy-to-use

- with a compact and clean design

Ergonomic handle with touchpoints, One-Touch™ button and instruction stickers makes the machine simple for the operator to get started

Increased suction performance with the curved squeegee system and patented blade retainer

Full access recovery tank makes it easy to clean and the debris tray will prevent any large debris to enter the tank

The productive no-nonsense floor cleaning machine

The SCRUBTEC 344 is the robust, productive, and easy-to-use walk-behind scrubber dryer you can always count on. Ideal for effective floor cleaning in, e.g. general stores, specialty stores, car dealer showrooms, repair shops and garages, gas station shops, and similar places.

Intuitive and simple for your staff to get familiar with, this compact machine is easy to maneuver. To get started, the OneTouch™ button activates all functions and during work the cleaning settings can be adjusted using 3 simple buttons on the dashboard.

SCRUBTEC 344 is a compact, no-nonsense machine with a powerful motor and quick access to maintenance. The high performance is ensured by the 43 cm scrub deck equipped with brush or pad, and the water pick-up is very effective due to the curved squeegee system.

Reliability is key to productivity, and this machine can go on and on: Up to 4 hours of continuous scrubbing and drying on a fully charged battery, and up to 100 min before the solution tank needs to be refilled.

For highly demanding cleaning tasks, e.g. in automotive businesses, the SCRUBTEC 344 is also available with PU blades to deal with oil/grease on the floor.

- Compact design and easy to maneuver
- Productive and powerful vacuum motor ensures a perfect water pick up and gives a fast drying result
- Brush click on/off, and light weight squeegee with no hose connection
- Patented elastic strap system makes squeegee maintenance easy and simple
- Detergent mixing system (as option) will prevent overdosing of chemicals – saving the environment and the total cost of cleaning

The Nilfisk SilentTech™ technology reduces the sound level from 65dB(A) - and down to 60dB(A) in silent mode

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Technical specifications

Description	Unit	SCRUBTEC 344 B COMBI	SCRUBTEC 344 E
Reference number		9087396020	9087397020
